Summary of the benefits you receive with AL's upper control arms!

Our A-arms work with all lift kits on the market today! We also will be make upper control arms for stock WK & XK

Ball joints are mounted on an angle to line up with steering knuckle

- No more premature ball joint failure from hyper extending the ball joint

Replaceable ball joints

- You can replace the ball joint for under \$35.00 per control arm

Factory front end alignment

- No premature tire wear

Heavy duty tubing

- Long lasting off road durability

CNC manufactured parts

- Precision and consistent parts every time!

Red powder coat finish

- Your friends can see you got custom arms on your KJ

Manufactured in USA

- Made by Americans for Americans!!
